Docket No.: 09669/056001

Proposed Agenda for Examiner Interview

1. Discuss the following limitation in pending independent claim 8:

“wherein the contactless chip and the contact chip are located in the cavity.”

2. Discuss applicability of Usami to the above claim limitation – In particular, the Examiner has continued to assert that Usami’s teachings can be combined to teach the above limitations but has not indicated, with sufficient specificity, how the cited portions of Usami teach the specific “contactless chip and contact chip in the [same] cavity” limitation in the claims.
